# Visual effects

Graphic design is the language of brands, a language that communicates their messages, values and identity to their audience without the need for words. At Raya, we help brands make a lasting impression on their audience by creating professional and distinctive visual effects.

Eventise is active in the children's sector and organizes educational and entertainment events for children. When designing this logo, we tried to create a logo that uses elements related to the group's activities in order to anchor the Eventise Group's message in the minds of the audience.

Focusing on children and their educational events, we tried to convey the message of happiness and success using the human symbol and stars, and we conveyed a sense of creativity to the audience using a personalized font.

## Pita Pars Hamta

The company Pita Pars Hamta is active in the retail, cable and network sectors. When designing this logo, we tried to show the symbol of power and originality in this logo by using the first letter of Pita and the legendary shape of the lion.

This logo was designed and realized based on letters and geometric shapes. Inspired by the letter, it is realized geometrically and symmetrically, conveying a sense of strength and coherence. The design is reminiscent of a powerful symbol such as a shard, expressing the authority, authenticity and credibility of the brand.

This logo is a creative combination of letters and Persian typography. It was designed to represent the brand identity with regular and minimal geometric shapes. The precise lines and proportions convey a sense of balance and harmony, giving the brand a modern and professional visual identity.
